QUOIZEL
6 CORPORATE PARKWAY
GOOSE CREEK, SC. 29445
www.quoizel.com

Please go to **www.quoizel.com** for product cleaning tips. Go to the **Care + Maintenance** selection.
Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.
Light Source: (1) A21 Medium Base bulb 150W Maximum.
Estimated Assembly Time: 20-30 minutes
Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to ensure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.
Fixture can only be mounted in the direction indicated on page 2.
⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.
Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

Package Contents

A Crossbar Assembly
x 1

B Alternate Mounting screw
x 2

C Glass Panel
x 4

D Fixture Body
x 1

STEP 2 – Installing the Crossbar Assembly

A. Pass the supply wires through the Crossbar Assembly (A). Attach the Crossbar Assembly (A) to the Outlet Box with the head of the Green Ground Screw facing you. Secure the Crossbar Assembly (A) with Outlet Box Screws (not included). Tighten until snug.
Note: Use the Alternate Shorter Mounting Screw (B) if your installation requires a shorter mounting screw.

STEP 1 – Attach the Glass Panels to the Fixture Body

A. Unscrew lock screws and remove the cage from the Fixture Body (D).
B. Remove Allen screws and tabs from the top edge of the cage. Insert the Glass Panel (C) into the slot in the bottom edge of the cage. Attach tabs onto the top edge of the Glass Panel (C) and line up holes on tabs to mounting holes on the top of the cage. Secure by threading Allen screws back into the mounting holes on the top edge of the cage. Tighten until snug with screwdrivers.
C. Attach the fixture hood onto the top edge of cage and secure with lock screws previously removed. Tighten until snug with screwdrivers.

STEP 3 – Test Fit the Backplate to the Crossbar Assembly

A. Remove the mounting balls from the Crossbar Assembly (A). Place the backplate and Fixture Body (D) onto the Crossbar Assembly (A) and secure with mounting balls. Note: The backplate and Fixture Body (D) should be snug against the wall and held tight with the mounting balls. If it is not, adjust the length of the mounting screw or alternate short mounting screw on the Crossbar Assembly (A) by unscrewing the preassembled hex nut and lock washer and then screwing the mounting screws or alternate short mounting screws in or out of the crossbar until the correct length is achieved. Once the backplate and Fixture Body (D) is secure, remove the mounting ball and Fixture Body (D) and proceed to Step 4.

STEP 4 - Wire Connections

A. Use standard wire connectors (not included) to make all wire connections. Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

STEP 6 – Install the Bulb and Apply Silicone Sealer

Figure 6

A. Insert the bulb onto socket and screw snugly into place.
B. Make sure the exterior wall surface and fixture backplate are free of dirt before applying caulk. Using exterior grade caulk, caulk over top of backplate and down both sides. Do not caulk the bottom of the fixture backplate to ensure proper moisture drainage.

Your fixture is now assembled and ready to use. Enjoy!
